PRODUCT INFORMATION

PRODUCT DESCRIPTION

SANAVITA Re-use prevention syringes are designed to enhance safety for patients and users during injections and reconstitution or dilution of medicines.

PRODUCT PROPERTIES

SANAVITA Re-use prevention syringes are easy to use while the security feature enhances safety aspects by preventing re-use.

Type B feature is activated by completing the desired procedure as done with any conventional syringe.

SANAVITA Re-use prevention syringes are already used for various vaccination campaigns.

The product is sterilized by ethylene oxide (EO) gas and has a shelf life of 5 years.
