**Competence** in OTC Products

## SANAVITA PREGNANCY TEST

- **Certainty** from first day of delayed period
- **Easy** to use
- **High accuracy**
- **Clear results**
- **Customized** packaging

# Product Information

## Product Description

**SANAVITA Pregnancy Test** is a rapid urine test used for qualitative determination of human chorionic gonadotropin (hCG) in urine for early detection of pregnancy.

## Product Properties

**SANAVITA Pregnancy Test** is an in-vitro diagnostic medical device for self-testing. The test can be carried out from the first day of delay in period. In case of pregnancy, women develop the hormone human chorionic gonadotropin (hCG), which can be detected in the urine. **SANAVITA Pregnancy Test** contains antibodies, which react with this hormone showing the result in analog form. All **SANAVITA Pregnancy Test** types have a shelf life of 2.5 years.

## Applicable Product Standards

The conformity assessment procedure was carried out according to Annex IV (excl. Chapter 4 & 6) of IVDD 98/79/EC. All applicable harmonized standards are fulfilled.

## Product Specifications and Components\*

### Types
